

# Masonicare at Home

## Personal Care Attendants

*Caregivers you can trust to keep you safe and at home.*

*“The process of implementing the service was seamless. The personal caregivers were incredibly caring, responsive and helpful. I (we) cannot thank them enough for the care they provided to my brother and the peace of mind they provided for his family. The service was just wonderful and we thank you all!”*

*~ Barbara (sister of client)*

Masonicare at Home is a registered Homemaker-Companion Agency serving the rapidly growing need for non-medical home and community- based services.

We pride ourselves on finding the most compassionate, carefully screened and competent caregivers for you or your loved one. We serve clients up to 24-hours a day, seven days a week with service plans customized to meet your specific needs — whether short or long term.

Our Personal Care Attendants are Certified Nursing Assistants or Home Health Aides. They can assist with all activities of daily living such as bathing, dressing, toileting, meal preparation, medication reminders and household maintenance.

At Masonicare, we believe in caring for the whole person — mind, body and spirit — and continuing “an ageless commitment to caring” that has been the cornerstone of our organization for more than 100 years.
